**A New Partnership for 2022**

ST. LOUIS, MO – International Food Products Corporation (IFPC) is proud to announce its exclusive partnership with Futura Ingredients.

“We are thrilled about our new relationship with Futura and representing them in the United States market,” Clayton Brown, CEO of IFPC. “Futura’s extensive product offering allows our commercial team to promote a globally respected brand with decades of technical experience. Their state-of-the-art facility in South-East Asia, coupled with our ever-expanding footprint in the United States, will add significant value to our customers and allow our growth to accelerate through adversity.”

This new agreement allows IFPC to distribute Futura Ingredients’ full product line that includes:

- Ekömul™ series
  - Glycerol Mono Stearates (GMS)
  - Distilled Mono Glycerides (DMG)
  - Functional DMG, Self-Emulsifying MDG, and Emulsifier Blends
- Ekölite™ series
  - Sodium Stearoyl Lactylates (SSL)
  - Sorbitan Tri Stearates (STS)
  - Sorbitan Mono Stearates (SMS)
  - Polyglycerol Esters (PGE)
  - Propylene Glycol Mono Stearates (PGMS)
  - Lactic Acid Esters of Mono-Diglycerides (LACTEM)
  - Citric Acid Esters of Mono-Diglycerides (CITREM)

Futura is known in the industry as a technology enabled, market driven, and customer focused business operating in the international food ingredients arena.

“From our humble beginnings in South-East Asia just over a decade ago, Futura Ingredients has steadily grown its global network. This is a great time to expand our footprint with an exciting partnership with IFPC. Capitalizing on IFPC’s expertise and experience locally, Futura Ingredients will be best placed to reach customers in the United States with high quality, innovative concepts, and solutions in key segments of bakery, dairy, confectionery, and fats and oils,” Si Si Wong, Global Business Director for Futura Ingredients.

### **About International Food Products Corporation - IFPC**

Since 1974, the Brown family has grown their family-owned business from a sugar supplier to a full service ingredient manufacturer and distributor. IFPC partners with brands across dairies, food and beverage manufacturers, and food service industries, supplying quality ingredients, creating custom solutions, and providing expert advice. Our goal is to create the best products for our customers to ensure their business is successful. Visit [www.ifpc.com](http://www.ifpc.com) for more information or follow us on LinkedIn at [IFPC](#).

### **About The International Companies**

The International Companies is comprised of five business units: International Food Products Corporation; International Ingredient Corporation, Green Field Solutions, and two transportation companies, TSL and International Transportation, Inc. The companies are privately held and family owned.

THE INTERNATIONAL COMPANIES

### **About Futura Ingredients**

Futura Ingredients is a leading manufacturer and solutions provider in the food and beverage industries, offering high-quality products such as emulsifier solutions and integrated systems blends through acclaimed brands such as Ekömul and Ekölite. Futura Ingredients was officially opened by CEO, David Last, in January 2011, with the Head Quarters situated in Singapore and a best-in-class manufacturing site in West Port, Klang, Malaysia, delivering products that are energy efficient and environmentally conscious. Futura Ingredients is uniquely aligned with one of South East Asia's leading oil and fats players, confirming their strength in raw material management and providing intimate insights into the edible oil market. Futura Ingredients conforms to international standards in sustainability, food safety and security, and corporate social engagement, and has the protocols and accreditations to meet the customer's expectations. Futura Ingredients supports customers to build their brands, drive market share, harvest productivity gains and create sustainable profitability through its extensive investment in technology-based innovation, technical expertise, best-in-class manufacturing facilities and extensive network of Channel partners.
