Frying Oil Overview

IFPC's portfolio of frying oils is designed to deliver consistent performance, reliable quality, and exceptional results across a variety of food applications.

Backed by trusted supplier partnerships and technical expertise, we help you find the right fit for your application.

FRYING OIL SOLUTIONS

Starch Overview

From creamy sauces and soups to bakery, dairy, and snack applications, starches are one of the most versatile ingredients in food formulation.

IFPC offers a full portfolio of native, modified, and clean label starches that deliver reliable functionality, formulation flexibility, and tailored solutions to meet performance goals across diverse food applications.

Whether you're looking to improve mouthfeel, enhance freeze/thaw stability, manage moisture, or support a cleaner ingredient statement, our team can help identify the right solution for your application.

STARCH SOLUTIONS

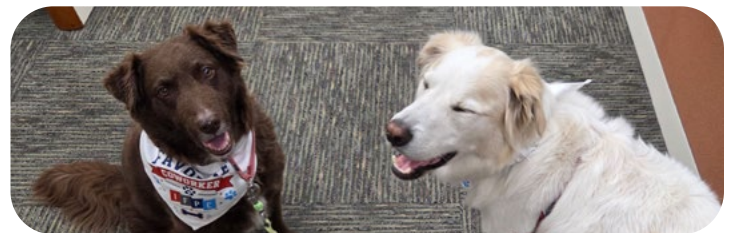

Tiny Team Member Day

In August, our office welcomed some very special guests for Tiny Team Member Day!

Our youngest visitors stopped by for a morning filled with smiles, snuggles, and the chance to meet the team. The event gave employees an opportunity to introduce their little ones to the IFPC family and create some memorable moments together.

At IFPC, we know that our people are at the heart of everything we do. Tiny Team Member Day was a wonderful reminder that the connections we build extend beyond the workplace and into the families who support us every day.

Bring Your Dog to Work Day

Also in August, Bring Your Dog to Work brightened up the office with wagging tails, happy greetings, and plenty of smiles.

Reflecting on IFT FIRST 2026

In July, the IFPC team was proud to exhibit at IFT FIRST 2026 in Chicago, where we connected with food and beverage professionals from across the industry and showcased a variety of innovative beverage concepts.

This year, attendees sampled our Coffee Slushies and Flavored Coffee Beverages topped with Caramel and Chocolate Drizzle, sparking meaningful conversations about ingredient solutions. Developed by our Ingredient Technology & Applications team, the samples featured added fiber, protein fortification, sugar-free sweeteners, natural cocoa, and starch texturizer solutions. As the Industry's Exclusive Ingredient Concierge™, IFPC brings together formulation expertise, market insight, ingredient sourcing, and functional systems to solve production challenges and accelerate innovation.

Featured Concepts

Coffee Slushie:

- Smooth Operator

Flavored Coffee Beverages:

- The Bee's Knees
- The Slow Burn
- Quiet Indulgence

Drizzles:

- Gilded Caramel Drizzle
- Indulgence Chocolate Drizzle

Team
Update

New Faces at IFPC: Kennedy & Emily

**Meet Kennedy Christensen
and Emily Horace**, the
newest members of
IFPC's Sales Team!

Kennedy and Emily are participating in our Sales Trainee Program, designed for individuals who are new to the food ingredients industry. Through hands-on experience across all areas of the business, the program helps participants build a strong foundation before graduating and taking ownership of a sales territory.

Throughout the program, trainees gain valuable exposure to our products, customers, suppliers, and internal teams, helping prepare them for long-term success in the industry.

We're excited to have Kennedy and Emily on board and look forward to supporting them as they begin their careers and grow with IFPC.
